In a team game, if a leg cannot be played due to a player(s) late arrival and no other leg can be played and no substitution is possible, then that leg is forfeited by the player who is absent. If the missing player is involved in more than one leg, then this rule will be applied for each leg every 20 minutes after the first leg is defaulted.
43. Initial registration of team players for the Winter League must be made as requested by the Competition Secretary. Any subsequent registrations for either the Winter League or Summer League may be made by request to the Competition Secretary 24 hours prior to the commencement of the scheduled match to enable a check on eligibility and also for a Summer League Handicap to be calculated and provided, where this format is used.
44. To expedite fixture fulfilment and to maintain fairness, and in circumstances where a team cannot field five players, team captains may deploy one player of their team to play twice in one fixture. This shall be known as the '4 Man Rule'.
45. Each team can use the '4 Man Rule' UPTO 8 TIMES PER SEASON. This may be deployed in any team league or cup match (incl. Nene Cup, Team KO & Premiership) but up to a maximum of eight times in total however this may be extended at the discretion of the committee
- a. Players may only be drawn as the '5th man' twice per season.
 - b. In away league fixtures the '5th man' must be deployed in leg 4 (against the break) so as not to gain an advantage.
 - c. In home league fixtures the '5th man' must be deployed in leg 5 (against the break) so as not to gain an advantage.
 - d. In cup matches the same applies - the 5th man cannot be drawn with the break.
 - e. When completing the draw, captains must ensure that, if using the 4 Man Rule, they complete the draw as normal for the legs that a player is available to them (i.e. legs 1,2,3 and 4 or 5 depending on whether you are home or away). Once completed, the draw is then made (randomly from the available 4-man rule players) for the remaining leg.
 - f. Games played under this ruling do not attract ranking points and are not considered when calculating Northants Masters Averages or Wins, nor will any break or score be eligible for consideration as the highest break or score

46. A player will only be permitted to register for one house per season and enter competitions thereafter from that house. Players may transfer from their registered team to another team at any time before the mid-point of the season. Such transfers must be with the agreement of the team captains involved and are subject to Committee approval.
47. Matches should not be postponed other than for reason of inclement weather or inability to field an eligible team even when deploying the '4 Man Rule'. In the event of unnecessary postponement, the match must be played by the closing date for that competition, as set by the Competition Secretary. The date for postponed match must be set within 14 days of the cancellation. In respect of challenge cup and competition matches, failure to play within 14 days will result in the postponing team forfeiting the match. Additional flexibility is available for rearranging league matches however all outstanding matches MUST be completed prior to the final match of the league season. Failure to play outstanding matches in compliance of this rule shall result in the postponing team forfeiting the match and points being awarded to the opposing team.
48. If a team fails to give at least 2hrs notification of a postponement, they will forfeit that match subject to the discretion of the Competition Secretary. In the event of any postponement the Competition Secretary MUST be notified on the day of the match. If less than 2hrs notice is provided, the offending team may be liable to reimburse the hosting team for food charges etc.
49. If a visiting team or player is found to have practiced on the "home" team's table on the match day, they will forfeit the match.
50. In team league matches one point will be awarded for each game won plus one point for the match winners. In the event of a tie in any game each team will be awarded 1/2 a point. Where a match is drawn, no bonus point shall be awarded.
51. Division winners will be the team holding the most points at the close of the competition and other positions awarded accordingly. In the case of two or more teams ending the season on equal points, positions shall be decided firstly by the outcome of the head-to-head matches (legs won and, if equal, then aggregate scores over both legs of the head to head,). Should teams still remain level, then a neutral table play-off shall take place, with a coin toss to determine who breaks first in 1,3 & 5. All games shall be even break, with the

final game featuring a timed break if the score is 2-2. The winner shall be declared league winner

Failure to comply may result in loss of points for one or both teams. It is recommended that captains keep a copy of their match cards. Match scorecards shall be made available to Data & Statistics Officer for publication on the League Website.
54. COMPLAINTS, i.e. condition of the table etc., must be given in writing within seven days of the offending match. Complaints on table condition must be pointed out to the opposing Captain prior to completing half of the first leg of the match. In respect of a complaint, both captains may agree to re-set the table and then both captains may play the table, once re-set to agree that it is satisfactory for play. If the 'away' captain is still unable to rule the table as 'playable' then a complaint may be lodged and the remainder of the games shall not be played. If a complaint is to be lodged the words "COMPLAINT LODGED" must be marked on the result card.
55. For competition matches, games may only be played at the venue allocated by the Competition Secretary or organiser. Where all players concerned have the same home venue then the match could be played on the home table. This must be agreed with all parties and the competition secretary prior to taking place. DISPUTES AND ADJUDICATION

126. Completed scorecards must be submitted to the Competition Secretary by 9pm on the Tuesday following the match night (or in the case of rearranged games, within 24 hours of the match).

127. In the unlikely event of a dispute all reasonable steps should be taken by players and scorers to resolve any matters according to mutual agreement within the Rules of Bar Billiards.

128. Where a dispute cannot be resolved in this manner it must be recorded on the scorecard and escalated (or raised directly) to the Competition Secretary and/or League Secretary within 24 hours for adjudication. Any decisions will be made prior to the next scheduled game and will be final.

129. The Northants Masters Competition matches shall be played on tables in compliance with Rules 130 - 141 below.

130. All other playing rules shall be in compliance with Rules 142 - 169 below.

BAR BILLIARDS PLAYING CONDITIONS

131. The playing area of the table shall not be less than 138.4 cm or more than 143.5 cm in length and not less than 78.7 cm in width, measuring from the inside edge of the cushions.

132. The table shall be not less than 86.4 cm and not more than 92.7 cm in height from the floor to the top of the cushion.

133. The table must be level and in good condition.

134. There shall be one black and two white skittles of equal size and weight.

135. To a height of at least 5.1 cm above its base each skittle should be cylindrical with a diameter between 1.5 cm and 1.8 cm. Skittles should be 11.4 cm tall +/- 0.6 cm. The black skittle shall be placed on a spot, the back edge of which will be 0.6 cm from the front edge of the 200 hole.

136. The white skittles shall be placed on spots level with and 17.8 cm from the centre of the 100 hole.

137. A "D" shall be firmly fixed to the table in the centre of the base of the playing area. This should be approximately 4 cm radius, and the centre of the "D" shall be clearly marked with a spot, to be known as the break spot.

138. Another spot shall be fixed in the centre of the table with its centre not less than 17.1 cm and not more than 17.9 cm from the centre of the break spot on the "D". This shall be known as the red spot.

139. Baulk lines shall be clearly drawn on the table radiating from the centre of the base of the playing area to the side cushions so as to form an arc of not less than 150 degrees and not more than 160 degrees.

140. The table shall be adequately illuminated.

141. One ball of one colour and seven balls of a strongly contrasting colour – all of equal size and weight shall be provided. All balls used shall be clearly visible against the colour of the bed of the table. As an example:

Cloth colour	Ball colour
Green	7x White and 1x Red
Red	7x Yellow & 1x Blue
Blue	7x White and 1x Red

142. Table time for League matches, Team, Individual and Pairs competitions will be a minimum 15 minutes and a maximum 20 minutes. If the table runs for less than 15 minutes the bar will be pulled again and play will continue until 15 minutes, at which point any balls going into holes will be retained as if the bar had dropped. If the bar has not dropped by 20 minutes any balls returning to the trap will be retained by the scorer as if the bar has dropped.

BAR BILLIARDS RULES OF PLAY

143. All shots must be played with the base of the cue ball within the area of the "D".

144. The red ball shall be placed by the hand on the red spot and a white ball placed on the break spot, also by hand. The white ball is then played with a cue onto the red ball with the object of potting one or both balls. This is known as playing from the break position.

145. If, from the break position, both balls are potted into any holes, three times consecutively, the player on their next shot shall be barred from potting more than one ball, in accordance with rule 167(e).

146. If no balls remain on the table at any time during the course of the game, with the exception of the last ball shot, play will be continued from the break position.

147. From the break position the red ball must always be used on the red spot, unless the bar has dropped and the red is no longer available. At any other time, use of the red ball as the cue ball is optional.

148. Other than from the break position and the last ball shot (see rule 159) the cue ball may be placed anywhere on the "D".

149. A white ball potted into a hole shall score the value of that hole. The red ball when potted will score double the value of that hole, provided no penalty has been incurred in either case.

150. A break will continue until such time as the player fails to pot a ball or plays a foul shot in accordance with rules 160 and 161.

151. At the end of a break the score should be recorded progressively on the scoreboard.

152. If during a break a ball on the lip of a hole falls in without being struck by another, the ball shall count as if potted and the score will count. A break will be deemed to have started when the first shot is played and ended when the scorer calls end of break.

153. If a player plays at a ball on the lip of a hole and the ball falls before the cue ball reaches it, no penalty will be incurred, and the player will continue with his break, except for any penalty incurred before the cue ball reaches the position previously occupied by the object ball.

154. If a ball on the lip of a hole falls in after the scorer has called end of break, in conjunction with rule 167(f), this ball shall not count.

155. Should a ball knock a skittle off its spot but the skittle does not fall over, the score shall count and the skittle should be replaced in its correct position before the next shot is played, unless prevented by a ball encroaching on the skittle's correct position, in which case it should be replaced as soon as the spot is clear, see rule 155.

156. Should any ball be touching a skittle causing it to lean, or preventing it from being re-spotted, this ball should be returned to the rack AT THE END OF THE BREAK.
157. When no balls are left in the rack, play continues by taking the ball furthest from the top (back) cushion. If two balls are equidistant from the top cushion the ball nearest the Centre line of the table should be taken.
158. After the Bar has dropped, play should continue until all balls in the rack had been used.
159. If two balls are "bridged" over a hole and one must be returned to the player, the scorer must hold the balls, "tilt" the back ball onto the table at its nearest point, and bring the other ball back to the player.
160. If only one ball remains, either in the rack or on the table, the break score should be recorded before the last shot is played. The last ball must then be played from the centre of the "D" into either the 100 or the 200 hole OFF ONE SIDE CUSHION. This is known as the 'Last ball shot'. Before playing the last ball shot the white skittles should be placed in the 50 holes and the top holes guarded. If the ball strikes a skittle in the 50 hole, and falls into the 100 or 200 hole, the score will not count. Both players should continue to play the last ball shot alternately until the ball is potted or the black peg is knocked down.
161. No one is to touch any ball whilst it is in motion (e.g. falling down hole), except to prevent the ball from going down the top holes in rule 159.
162. Foul shots incurring loss of break score penalty:
- Potting both balls from break position four consecutive times. (Except as in rule 167(e)).
 - Failing to hit another ball with the cue ball. (Except as in rule 152 and rule 159).
 - Any ball returning over or obstructing the baulk line. A ball shall be deemed to be obstructing the baulk line if, when viewed from directly above, it obscures any part of the line. The ball should be returned to the rack.
 - Any ball obstructing or hitting the "D". A ball shall be deemed to be obstructing the "D" if, when viewed from directly above, it obscures any part of the "D". The ball should be returned to the rack.
 - Any ball mounting the cushion or leaving the table, even if it falls back on the playing surface. The ball should be returned to the

rack. It is not a foul shot if a ball bounces upwards and returns to playing surface without touching anything apart from another ball.

- f. Knocking down a white skittle with a ball.
- g. Deliberately touching or knocking down a white skittle with cue or hand while the balls are in motion or before a ball has fallen completely down a hole. (Reason - prematurely to avoid penalty, could just pick up the peg and put it back).
- h. Playing a shot while balls are still in motion or before a ball has fallen completely down a hole.
- i. The player interfering with the movement of any struck ball before it has completely fallen down a hole.
- j. Accidentally knocking the cue ball off the "D" with any part of the cue. The cue ball will not be considered to be in play until it is completely clear of the "D" and the baulk line as in above and d) above.
- k. Hitting the cue ball after it has left the "D" (double hitting / push shot).
- l. Not using the red ball, when available, at the red ball spot, at the break shot.
- m. Causing a ball resting on the lip of a hole to drop by deliberately disturbing the table.
- n. Playing the break shot with either ball not on its spot. It is not a foul under this rule if the ball falls off the spot as the player is in the act of striking. Any other penalty incurred will count.
- o. If the cue ball fails to reach an imaginary line through the black peg and parallel with the top cushion and does not strike another ball, it will be returned to the tray and the player loses his break. (This does not apply to the last ball of the game).

163. Foul shots incurring loss of entire score penalty:

- a. Knocking down the black skittle with a ball.
- b. Deliberately touching the black skittle with a cue or hand while balls are in motion or before a ball has completely fallen down a hole.

164. Should both a white and a black skittle be knocked down, if the white skittle falls first, the penalty will be loss of break, unless the white was knocked down deliberately by hand or cue. Should the black skittle fall first, the penalty will be loss of entire score.

165. If a player is nudged or jolted while in the act of playing a shot, causing them to play a foul shot, no penalty will be incurred. The scorer should

replace the balls in what they consider to be their original positions and the player should then replay their shot.

166. If the balls are disturbed in any way other than in the normal course of play, then the scorer should replace the balls in what he/she considers to be their original positions and play should continue. If, in the opinion of the scorer, a ball on the edge of the hole falls due to any accidental or deliberate table movement by the player, that the ball be replaced and will not count and the break will end.

167. Deliberately foul shot: If, after the bar has dropped, a player - in the opinion of the scorer - deliberately plays a ball directly into a hole without touching another ball, then the ball should be retrieved and the other player allowed to play it. Any additional coins required to do so should be provided by the player deemed to have played the foul.

168. Scorer and marker:

- a. A competent scorer should be appointed. In league and competition player a marker may also be appointed at the discretion of team captains and/or players.
- b. The scorer will act as referee and will be the sole arbiter on matters of facts and interpretation of the rules during the course of the game, unless a tournament referee is present.
- c. The scorer will call out, progressively, the score after each shot.
- d. Progressive thousands must be recorded either by placing, in clear view, coins or other suitable markers, or alternatively by recording them on the scoreboard.
- e. After a player has potted both balls three times consecutively from the break position, the scorer must clearly warn the player to leave one ball up. Should the scorer fail to do so, the player will not be penalised under rule 161(a).
- f. If, during the course of play, a ball remains on the lip of a hole, the scorer shall decide when to call end of break in accordance with rule 153. (Player walking away from table does not determine end of break)
- g. The scorer shall be responsible for ensuring that the scores recorded on the scoreboard are correct.
- h. A marker may be appointed to record the progressive scores on the scoreboard at the end of each break.

- i. The marker, if appointed, should check the score as it is called out by the scorer and should draw his attention to any discrepancy at the earliest convenient time.
- j. No person, other than the scorer or marker, should touch the scoreboard during the course of the game.

169. If a ball obstructs the placing of a ball anywhere in the "D", but no foul shot has been played, it will remain there, but will be removed to the trap at the end of the current break (similar to the leaning peg/obstructed spot situation).

170. No coaching of players should take place whilst the player is at the table.
